HOW TO PLAY TRAFFIC JAM™

GET READY

Be sure your computer is hooked up correctly.
See your owner's manual for details.

- Insert **TRAFFIC JAM** game cartridge *before* you turn the computer on. Make sure the label is facing you.
- Turn the computer and TV set on.
- When color bars appear, press any key. Then press ↓ twice, to make the finger point at "CARTRIDGE."
- Press RT.

OBJECT OF THE GAME

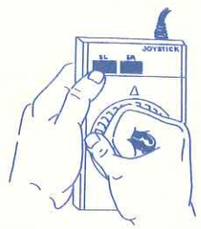
Change the color of all the city streets blue, by driving everywhere on the map. Earn bonus points by driving over the letters B-O-N-U-S, by picking up gas cans you find in the streets, and by colliding with other traffic when your protection shield is flashing. Watch out for other cars, roadblocks and the steamroller when your shield isn't active!

HOW TO START

- Press 1 or 2 on the keyboard to set the number of players.
- Press SL or SR on the *left* controller to set the skill level.
  —SL is for the "Amateur" (easy) game.
  —SR is for the "Pro" (hard) game.
- When the message disappears from the center of the screen, start driving, from the bottom left corner of the city map.
  —In 1-player games, use the *left* controller.
  —In 2-player games, the player with the *left* controller has the first turn.

HOW TO USE THE CONTROLLERS

JOY CONTROLLERS

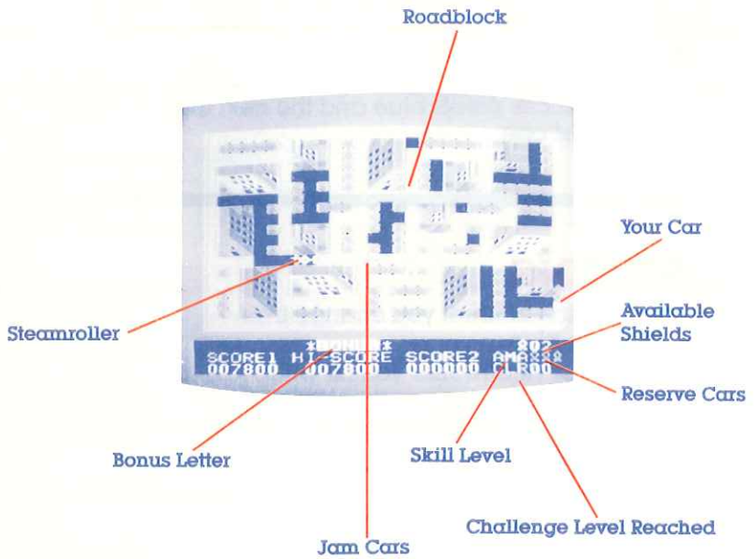


JOYSTICK CONTROLLERS

- Press Disk edge or move joystick in direction you want to drive: left, right, up or down.
- To make protective shield work (when available), press SL or SR.

PLAY ACTION

- You start with 4 cars, one on the street and three in reserve.
- Use controller to steer your car. It will keep running at top speed until it reaches a dead end or crashes.
  —Your car always starts in the bottom left corner of the street map at the start of the game and after every crash.
  —Travel every street on the map, avoiding other cars, steamrollers, and steady-glowing roadblocks.



- Drive over every bonus letter; when you've driven over all of them you win bonus points. Drive over them in the correct sequence (B-O-N-U-S) and win a *giant* bonus!
- You start every game with 2 protective shields. To activate the shield, press [SL] or [SR]. Your car flashes when its shield is active. Hit another car or the steamroller when you're flashing and win extra points.
  —Pick up extra shields every time you drive over the flashing gas can.
  —Your car doesn't color the street blue while its shield is active.
- The steamroller tries to erase parts of your blue trail. Drive over those sections of city streets again to turn them back to blue.
- When every street has turned blue you get another map, which includes a moving bridge over the river. Turn all those streets blue and the next map is similar to the first one.

  GAME—OVER
  RT—KEY
- Press [RT], then wait for the computer to ask for the number of players in the next game. Press [1] or [2], then pick a skill level. Wait for your car to start moving. Try to beat the HI SCORE!
